

Recommended Top End Native Plants for Landscaping

[Attract Birds](#), [Fragrant Flowers](#), [Edible Fruit](#), [Feature Plants](#), [Screening Shrubs](#), [Large Trees](#), [Screening Trees](#)

Attract Birds	Notes
<i>Aidia racemosa</i>	Small evergreen, dense tree. White fragrant flowers, red edible fruit.
<i>Alphitonia incana</i>	Soap Tree. Fast growing pioneer species, layered branching, black fr.
<i>Asteromyrtus symphyocarpa</i>	Liniment Tree. Small tree, showy yellow globular flowers.
<i>Breynia cernua</i>	Small evergreen screening shrub with red berries.
<i>Buchanania arborecens</i>	Erect slender evergreen tree densely foliated, cream fl, small edible fr.
<i>Callicarpa candicans</i>	Multi-stemmed small shrub with purple fruit.
<i>Carallia brachiata</i>	Medium tree, spreading branches, corky bark, red edible fruit.
<i>Ficus spp</i>	Small to large trees with edible fruit.
<i>Flueggea virosa</i>	Small shrub with white fruit. Attracts birds. Healing qualities.
<i>Grevillea spp</i>	Small shrubs or trees with colourful, spectacular flowers.
<i>Helicteres isora</i>	Small woody shrub with yellow/orange/red flowers, spiral fruit.
<i>Hydriastele wendlandiana</i>	Slender clumping palm with red fruit. Moisture needed.
<i>Jasminum spp</i>	Shrub or climber with white, highly scented flowers.
<i>Leea indica</i>	Evergreen shrub to 5 m with attractive leaves. Cream flowers, red fruit.
<i>Leea rubra</i>	Small shrub, 1-3 m. Attractive leaves, red flowers, black edible fruit.
<i>Maranthes corymbosa</i>	Hardy large screening tree, termite resistant. Cream flowers.
<i>Melicope elleryana</i>	Large slender, fast growing tree. Cream to pink flowers, corky bark.
<i>Schefflera actinophylla</i>	Umbrella Tree. Slender, multi-stemmed, fast growing. Red flowers.
<i>Syzygium spp</i>	Evergreen trees. Colourful flowers and fruit, edible.

Fragrant Flowers	Notes
<i>Aglaiia brownii</i>	Small evergreen tree, tiny yellow flowers, orange fruit.
<i>Aidia racemosa</i>	Small evergreen, dense tree. White fragrant flowers, red edible fruit.
<i>Clerodendrum inerme</i>	Small shrub with white flowers, edible fruit. Healing qualities.
<i>Cyclophyllum schultzei</i>	Small screening shrub with red edible fruit. White/ yellow flowers.
<i>Elaeocarpus arnhemicus</i>	Medium tree with serrated leaves. Cream flowers, blue edible fruit.
<i>Fagraea racemosa</i>	Erect slender tree with glossy leaves, white flowers. Needs moisture.
<i>Gardenia spp</i>	Small shrubs or trees with white, beautifully fragrant white flowers.
<i>Glycosmis trifoliata</i>	Small shrub, 1-3 m. White flowers, pink edible fruit.
<i>Guettarda speciosa</i>	Small tree with large, glossy leaves. White Flowers. Healing qualities.
<i>Helicia australasica</i>	Slender tree with attractive cream-white flowers. Edible purple fruit.
<i>Horsefieldia australiana</i>	Large slender tree with shiny leaves. White edible seed under orange.
<i>Ixora timorensis</i>	Hardy shrub or small tree. White flowers and edible black fruit.
<i>Jasminum didymum</i>	Shrub or climber with white flowers and black fruit.
<i>Maranthes corymbosa</i>	Hardy large screening tree, termite resistant. Cream flowers.
<i>Melaleuca argentea</i>	Tall paperbark, silver leaved. Creamy green flowers.
<i>Melicope elleryana</i>	Large slender, fast growing tree. Cream to pink flowers, corky bark.
<i>Micromelum minutum</i>	Dense screening shrub. White fl, orange/red fruit. Brings butterflies.
<i>Murraya paniculata</i>	Dense shrub with rich green leaves, white flowers and red fruit.
<i>Nauclea orientalis</i>	Large tree with glossy leaves. Flowers on orange globular heads.
<i>Pavetta brownii</i>	Small shrub with white flowers and black fruit.
<i>Phaleria clerodendron</i>	Spectacular large shrub. Highly fragrant fl along stems, large red fruit.
<i>Pittosporum ferrugineum</i>	Small tree with white flowers and orange seeds in yellow fruit.
<i>Pittosporum moluccanum</i>	Small tree with white flowers and black seeds in orange fruit.
<i>Pleomele angustifolia</i>	Slender shrub with strappy leaves. Green/yellow flowers, red fruit.
<i>Tabernaemontana orientalis</i>	Small shrub. Milky sap in stems, white flowers, orange fruit.
<i>Terminalia microcarpa</i>	Large tree, layered branching, cream flowers, edible purple fruit.
<i>Timonius timon</i>	Medium tree. White flowers and green-brown fruit.

Edible Fruit	Notes
<i>Acmena hemilampra</i>	Medium tree with flushes of red leaves. White flowers and fruit.
<i>Aidia racemosa</i>	Small evergreen tree, white fragrant flowers, red edible fruit.
<i>Buchanania arborecens</i>	Erect slender evergreen tree densely foliated, cream flowers, purple fr.
<i>Canarium australianum</i>	Shapely tree with open crown. Cream bark. Seeds edible.
<i>Carallia brachiata</i>	Hardy medium tree, spreading branches, corky bark, red fruit.
<i>Celtis philippinensis</i>	Hardy screening medium tree with fleshy red fruit.
<i>Clerodendrum inerme</i>	Small shrub with white flowers, purple fruit. Healing qualities.
<i>Cyclophyllum schultzei</i>	Small screening shrub with red fruit. White/ yellow flowers. Red fruit.
<i>Dillenia alata</i>	Medium tree. Glossy leaves. Yell flowers, pink fruit, flaky red bark.
<i>Diospyros compacta</i>	Dense screening small tree. Yellow to red berries.
<i>Drypetes deplanchei</i>	Small tree with dense leathery foliage. Yellow to red fruit.
<i>Elaeocarpus angustifolius</i>	Large tree, buttress roots. Blue fruit, green and red leaves. Needs moist
<i>Elaeocarpus arnhemicus</i>	Medium tree, leaves with serrations. Scented cream flowers, blue fruit.
<i>Ficus spp</i>	Small to large trees, attract birds.
<i>Flueggea virosa</i>	Small shrub with white fruit. Attracts birds. Healing qualities.
<i>Ganophyllum falcatum</i>	Large termite resistant tree with small leaves. Bright orange-red fruit.
<i>Grewia asiatica</i>	Multi-stemmed shrub with yellow flowers and edible black fruit.
<i>Glycosmis trifoliata</i>	Small shrub, 1-3 m. Fragrant white flowers, pink fruit.
<i>Helicia australasica</i>	Slender tree with attractive cream-white flowers. Purple fruit.
<i>Horsefieldia australiana</i>	Large slender tree, shiny leaves. White seed in orange-red skin.
<i>Ixora timorensis</i>	Shrub or small tree. White fragrant flowers and black fruit.
<i>Leea rubra</i>	Small hardy shrub, 1-3 m. Attractive leaves, red flowers, black fruit.
<i>Mallotus nesophilus</i>	Small hardy bushy tree with hairy leaves. Yellow powder on fruit.
<i>Melastoma malabathricum</i>	Small shrub with showy purple flowers and purple fruit. Needs moist.
<i>Mimusops elengi</i>	Large tree with shiny small leaves. Rough dark bark, orange fruit.
<i>Morinda citrifolia</i>	Small tree with glossy leaves. Scented white flowers, white fleshy fruit, smelly when ripe. Healing qualities.
<i>Nauclea orientalis</i>	Large tree with glossy leaves. Flowers on spectacular globular heads.
<i>Pavetta brownii</i>	Small shrub with white flowers and black fruit.
<i>Plachonia careya</i>	Cocky apple. Small tree with white flowers and green fruit.
<i>Podocarpus grayae</i>	Large feature screening tree with narrow leaves. Blue seed on red fruit.
<i>Polyaulax cylindrocarpa</i>	Small layered shrub with red frankfirt-like red fruit.
<i>Pouteria sericea</i>	Small tree with discoloured leaves and shiny purple-black fruit.
<i>Sterculia quadrifida</i>	Peanut Tree. Medium, deciduous. Black seeds in red fruit casing.
<i>Syzygium armstrongii</i>	Large tree. White flowers and small white fruit. Cream bark.
<i>Syzygium fibrosum</i>	Small tree. Cream flowers, pink/red fruit.
<i>Syzygium forte</i>	Large tree. White flowers and large white fruit. Flaky coloured bark.
<i>Syzygium minutuliflorum</i>	Large tree. White flowers and small white fruit. Moisture needed.
<i>Syzygium nervosum</i>	Large tree, buttress roots. White flowers, purple fruit. Moisture required. Crushed leaves have pleasant fragrance.
<i>Syzygium suborbiculare</i>	Red Bush Apple. Large glossy leaves, white flowers, large red fruit.
<i>Tamarindus indica</i>	Tamarind. Large tree with dense crown. Oblong fruit capsules.
<i>Terminalia spp</i>	Small to large trees.
<i>Terminalia microcarpa</i>	Large tree, layered branching, cream flowers, edible fruit.
<i>Vitex acuminata</i>	Medium tree. Blue flowers and purple-black fruit.
<i>Vitex glabrata</i>	Medium deciduous tree. Cream flowers and purple-black fruit.

Feature Plants	Notes
<i>Abelmoschus moschatus</i>	Herb to 30 cm. Large bright red flowers. Needs open position.
<i>Acmena hemilampra</i>	Medium tree with flushes of red leaves. White flowers and fruit.
<i>Aidia racemosa</i>	Hardy small evergreen tree, white fragrant flowers. Edible red fruit.
<i>Asteromyrtus magnifica</i>	Very attractive shrub, magnificent yellow flowers.
<i>Asteromyrtus symphyocarpa</i>	Liniment Tree. Small tree, yellow globular flowers.
<i>Allosyncarpia ternata</i>	Very large endemic tree. Dark green trifoliolate leaves. Superb tree.
<i>Bombax ceiba</i>	Kapok Tree. Deciduous tall tree with large thorns on trunk. Red fl.
<i>Bossiaea bossiaeioides</i>	Slender shrub with red new growth. Yellow flowers.
<i>Buchanania arborecens</i>	Erect slender evergreen tree densely foliated, cream flowers.
<i>Callicarpa candicans</i>	Multi-stemmed small shrub with purple fruit. Attracts birds.
<i>Callophyllum sil</i>	Stately tree with dark fissured bark, narrow leaves. Termite resistant.
<i>Calytrix exstipulata</i>	Turkey Bush. Masses of showy pink-purple flowers.
<i>Clerodendrum inerme</i>	Small shrub with white flowers and purple fruit. Healing qualities.
<i>Cordia subcordata</i>	Colourful small screening tree with bright orange flowers.
<i>Corymbia ptychocarpa</i>	Swamp Bloodwood. Large leaved tree with brilliant red flowers.
<i>Cryptocarya cunninghamii</i>	Coconut Laurel. Medium tree. Crushed leaves have coconut fragrance.
<i>Cyclophyllum schultzei</i>	Small screening shrub with red fruit. White/ yellow flowers, edible fr.
<i>Dillenia alata</i>	Medium tree. Glossy leaves. Yellow flowers, pink fruit, flaky bark.
<i>Diospyros humilis</i>	Medium tree with small leaves, bears masses of yellow fruit.
<i>Diospyros maritima</i>	Ebony. Small dense tree with black trunk. Glossy leaves, yellow/red fr.
<i>Dodonaea platyptera</i>	Small tree, papery winged fruit capsules. Great fissured trunk.
<i>Elaeocarpus angustifolius</i>	Large tree, buttress roots. Blue fruit, green new and red old leaves.
<i>Elaeocarpus arnhemicus</i>	Medium tree with serrated leaves. Scented cream flowers, blue fruit.
<i>Epipremnum amplissimum</i>	Large shiny, dark green leaved climber. Requires moisture.
<i>Erythrina variegata</i>	Coral Tree. Deciduous medium tree, striking red flowers.
<i>Eucalyptus phoenicea</i>	Slender tree, orange flaky bark and beautiful orange flowers.
<i>Fagraea racemosa</i>	Erect slender tree with glossy leaves, white flowers. Needs moisture.
<i>Ficus racemosa</i>	Large tree with beautiful buttress roots, edible fruit on trunk.
<i>Ficus scobina</i>	Small tree with sandpaper leaves. Edible fruit.
<i>Ficus virens</i>	Banyan. Large spreading tree with aerial roots. Edible fruit.
<i>Ganophyllum falcatum</i>	Large tree with small leaves. Bright orange-red fruit. Termite resistant.
<i>Glycosmis trifoliata</i>	Small shrub, 1-3 m. Fragrant white flowers, pink fruit.
<i>Grevillea dryandri</i>	Low shrub with showy cream, pink or red flowers. Needs sun.
<i>Grevillea pteridifolia</i>	Slender fast growing small tree with showy bright orange flowers.
<i>Harpullia leichhardtii</i>	Small screening tree with greenish-cream flowers and yellow fruit.
<i>Helicia australasica</i>	Slender tree with scented cream-white flowers. Purple fruit.
<i>Helicteres isora</i>	Small woody shrub with yellow/orange/red flowers, spiral fruit.
<i>Hibiscus spp</i>	Small shrubs to spreading tree. Colourful large flowers.
<i>Horsefieldia australiana</i>	Large slender tree, shiny leaves. Edible white seed in red fruit.
<i>Hydriastele wendlandiana</i>	Slender clumping palm with red fruit. Moisture needed.
<i>Jasminum didymum</i>	Shrub or climber with white fragrant flowers and black fruit.
<i>Leea rubra</i>	Small shrub, 1-3 m. Attractive leaves, red flowers, black edible fruit
<i>Leptospermum madidum</i>	Weeping Ti-Tree. Small graceful tree, attractive trunk, weeping foliage
<i>Livistona inermis</i>	Attractive slender fan palm with cream-white flowers.
<i>Melastoma malabathricum</i>	Small shrub with showy purple flowers and purple edible fruit.
<i>Melicope elleryana</i>	Large slender, fast growing tree. Cream to pink flowers, corky bark.
<i>Micromelum minutum</i>	Dense shrub. White flowers, orange/red fruit. Brings butterflies.
<i>Millettia pinnata</i>	Medium screen tree with glossy leaves. Pink/white pea flowers.
<i>Mimusops elengi</i>	Large tree with shiny small leaves. Rough bark, orange edible fruit.
<i>Morinda citrifolia</i>	Small tree with glossy leaves. Scented white flowers, white fleshy fruit, smelly when ripe. Healing qualities.
<i>Murraya paniculata</i>	Dense shrub with fragrant white flowers and red fruit. Attractive leaves

Feature Plants cont'	Notes
<i>Myristica insipida</i>	Native Nutmeg. Medium tree with layered branches and glossy leaves. Brown seed wrapped in bright red aril.
<i>Nauclea orientalis</i>	Large tree with glossy leaves. White flowers on globular heads.
<i>Peltophorum pterocarpum</i>	Yellow Flame Tree. Hardy medium tree, showy yell flowers.
<i>Phaleria clerodendron</i>	Spectacular large shrub. White fragrant flowers along stems and trunk, large red fruit.
<i>Phaleria octandra</i>	Attractive shrub with white fl, clustered red fruit. Best in part shade.
<i>Pleomele angustifolia</i>	Slender shrub with strappy leaves. Green/yellow flowers, red fruit.
<i>Podocarpus grayae</i>	Large screening tree with strap leaves. Blue seed on red edible fruit.
<i>Polyalthia australis</i>	Tall tree with shiny bronze new leaves, bronze new growth. Red fruit.
<i>Polyaulax cylindrocarpa</i>	Small layered shrub with red frankfirt-like edible fruit.
<i>Schefflera actinophylla</i>	Umbrella Tree. Slender, multi-stemmed. Red flowers and fruit.
<i>Stenochlaena palustris</i>	Vigorous climbing fern with shiny fronds. Requires moisture.
<i>Sterculia holtzei</i>	Tall tree with beautiful prominent buttress roots. Requires moisture.
<i>Suregada glomerulata</i>	Attractive dense shrub. Males have numerous white flowers along stems, females bear masses of orange fruit.
<i>Syzygium armstrongii</i>	Large tree. White flowers and small white fruit. Cream bark.
<i>Syzygium fibrosum</i>	Small tree. Cream flowers, pink/red fruit. Attracts birds.
<i>Syzygium forte</i>	Large tree. White flowers and large white fruit. Flaky reddish bark.
<i>Syzygium minutuliflorum</i>	Large tree. White fl and small white fruit. Moisture required.
<i>Syzygium nervosum</i>	Large tree, buttress roots. White flowers, purple fruit. Moisture required. Crushed leaves have pleasant fragrance.
<i>Syzygium suborbiculare</i>	Red Bush Apple. Large glossy leaves, white flowers, edible red fruit.
<i>Tabernaemontana orientalis</i>	Small shrub. Milky sap in stems, white flowers, orange fruit.
<i>Templetonia hookeri</i>	Decorative shrub with needle-like foliage. Yellow flowers.
<i>Terminalia microcarpa</i>	Large tree, layered branching, cream scented flowers, edible fruit.

Screening Shrubs	Notes
<i>Aglaiia brownii</i>	Small evergreen tree, tiny yellow flowers, fleshy orange fruit.
<i>Asteromyrtus symphyocarpa</i>	Liniment Tree. Small tree, yellow globular flowers.
<i>Callicarpa candicans</i>	Multi-stemmed small shrub with purple fruit. Attracts birds.
<i>Calytrix brownii</i>	Much-branched shrub with attractive narrow leaves and white flowers.
<i>Clerodendrum costatum</i>	Hardy with masses of pretty white flowers. Root suckers.
<i>Cyclophyllum schultzei</i>	Small screening shrub with red fruit. White/ yellow flowers, red fruit.
<i>Diospyros compacta</i>	Hardy dense shrub with yellow fruit turning red.
<i>Dodonaea platyptera</i>	Small tree, papery winged fruit capsules. Interesting fissured trunk.
<i>Flueggea virosa</i>	Small shrub with white fruit. Attracts birds. Healing qualities.
<i>Glochidion perakense</i>	Hardy dense shrub with shiny foliage and red fruit.
<i>Glycosmis trifoliata</i>	Small shrub, 1-3 m. White flowers, pink edible fruit.
<i>Grewia asiatica</i>	Multi-stemmed shrub with yellow flowers and edible black fruit.
<i>Helicteres isora</i>	Small woody shrub with yellow/orange/red flowers, spiral fruit.
<i>Ixora timorensis</i>	Shrub or small tree. White flowers and edible black fruit.
<i>Leea rubra</i>	Small shrub, 1-3 m. Attractive leaves, red flowers, edible black fruit
<i>Murraya paniculata</i>	Dense shrub with white flowers and red fruit. Attractive leaves.
<i>Phaleria octandra</i>	Attractive shrub with white flowers, clustered red fruit. Part shade.
<i>Pleomele angustifolia</i>	Long stalkless leaves, small greeny-cream flowers and red berries.
<i>Scaevola taccada</i>	Bushy spreading shrub, shiny fleshy leaves, white flowers.
<i>Suregada glomerulata</i>	Attractive dense shrub. Males have numerous white flowers along stems, females bear masses of orange fruit.
<i>Vitex trifolia</i>	Mostly trifoliolate leaves, purple orchid-like flowers.

Large Trees	Notes
<i>Acmena hemilampra</i>	Dense crown, has flushes of red leaves. White flowers and fruit.
<i>Allosyncarpia ternata</i>	Very large endemic tree. Dark green trifoliate leaves. Superb tree.
<i>Bombax ceiba</i>	Kapok Tree. Deciduous tall tree, large thorns on trunk. Red flowers.
<i>Buchanania arborecens</i>	Erect slender evergreen tree densely foliated, cream flowers.
<i>Callophyllum inophyllum</i>	Shiny broad leaves with parallel veins, showy flowers. Resists termites
<i>Callophyllum sil</i>	Stately tree with dark fissured bark, narrow leaves. Termite resistant.
<i>Canarium australianum</i>	Shapely tree with open crown. Cream bark. Seeds edible.
<i>Cryptocarya cunninghamii</i>	Coconut Laurel. Medium tree. Crushed leaves have coconut fragrance.
<i>Elaeocarpus angustifolius</i>	Develops buttress roots. Edible blue fruit, colourful leaves.
<i>Ficus benjamina</i>	Weeping Fig. Aerial roots, small edible red fruit. Attracts birds.
<i>Ficus racemosa</i>	Cluster Fig. Large buttress roots, edible yellow fruit on trunk.
<i>Ficus virens</i>	Banyan. Spreading tree with aerial roots. Edible small fruit.
<i>Ganophyllum falcatum</i>	Termite resistant with small leaves. Orange-red fruit, reddish bark.
<i>Gmelina schlecterii</i>	Canopy tree in wet forests. Large leaves. Pink/cream flowers.
<i>Horsefieldia australiana</i>	Slender tree, shiny leaves. White edible seed in red fruit.
<i>Lophopetalum arnhemicum</i>	Slender endemic. Flat, oblong, brown seeds in unusual capsules.
<i>Maranthes corymbosa</i>	Large screening tree, termite resistant. Cream flowers.
<i>Melaleuca argentea</i>	Silver-leaved Paperbark. Many aboriginal uses. Cream-green flowers.
<i>Melaleuca leucadendra</i>	Weeping Paperbark. Cream-green flowers. Healing qualities.
<i>Melicope elleryana</i>	Tall slender, fast growing tree. Cream to pink flowers, corky bark.
<i>Miliusa brahei</i>	Rough, dark bark. Shiny leaves and purple-black fruit.
<i>Mimusops elengi</i>	Tree with shiny small leaves. Rough dark bark, orange fruit.
<i>Myristica insipida</i>	Native Nutmeg. Tree with layered branches, glossy dark green leaves. Brown seed wrapped in red aril.
<i>Nauclea orientalis</i>	Layered tree with glossy leaves. White flowers on globular heads.
<i>Peltophorum pterocarpum</i>	Yellow Flame Tree. Hardy tree, showy yellow flowers.
<i>Podocarpus grayae</i>	Very attractive feature tree. Strap leaves. Blue seed on red edible fruit.
<i>Polyalthia australis</i>	Tall tree with shiny leaves, bronze new growth. Red to black fruit.
<i>Schefflera actinophylla</i>	Umbrella Tree. Slender, multi-stemmed. Red flowers. Attracts birds.
<i>Sterculia holtzei</i>	Tall tree with beautiful buttress roots. Requires moisture.
<i>Syzygium armstrongii</i>	Shiny leaves. White flowers and small white fruit. Cream bark.
<i>Syzygium forte</i>	White flowers and large white edible fruit. Flaky red bark.
<i>Syzygium minutuliflorum</i>	White flowers and small white pear-shaped fruit. Moisture required.
<i>Syzygium nervosum</i>	Buttress roots. White flowers, purple fruit. Moisture required.
<i>Terminalia microcarpa</i>	Large tree, layered branching, cream flowers, edible fruit.

Screening Trees	Notes
<i>Acmena hemilampra</i>	Medium tree with flushes of red leaves. White flowers and fruit.
<i>Aidia racemosa</i>	Small evergreen tree, white fragrant flowers and red edible fruit.
<i>Allosyncarpia ternata</i>	Very large endemic tree. Dark green trifoliate leaves. Feature plant.
<i>Breynia cernua</i>	Small evergreen screening small tree with red berries. Attracts birds.
<i>Buchanania arborecens</i>	Erect slender evergreen tree densely foliated, cream flowers, edible fr.
<i>Callophyllum sil</i>	Stately tree with dark fissured bark, narrow leaves. Termite resistant.
<i>Carallia brachiata</i>	Medium tree, spreading branches, corky bark, red fruit.
<i>Celtis philippinensis</i>	Hardy small tree with fleshy red fruit, dark green leaves.
<i>Cordia subcordata</i>	Colourful small screening tree with bright orange flowers.
<i>Cryptocarya cunninghamii</i>	Coconut Laurel. Medium tree. Crushed leaves have coconut fragrance.
<i>Denhamia obscura</i>	Small tree with pendulous form, attractive fruit and seeds.
<i>Diospyros maritima</i>	Ebony. Small dense tree with black trunk. Yellow/red fruit.
<i>Dodonaea platyptera</i>	Small tree, papery winged fruit capsules. Interesting fissured trunk.
<i>Drypetes deplanchei</i>	Hardy small tree with dense foliage. Yellow to red edible fruit.
<i>Elaeocarpus arnhemicus</i>	Medium tree with serrated leaves. Scented cream flowers, blue fruit.
<i>Ficus aculeata</i>	Sandpaper Fig. Hardy small tree, edible fruit, has healing qualities.
<i>Ficus scobina</i>	Sandpaper Fig. Small tree with edible fruit. Attracts birds.
<i>Ganophyllum falcatum</i>	Large tree with small leaves. Bright orange-red fruit. Termite resistant.
<i>Harpullia leichhardtii</i>	Attractive small tree with greenish-cream flowers and yellow fruit.
<i>Helicia australasica</i>	Slender tree with scented cream-white flowers. Purple fruit.
<i>Horsefieldia australiana</i>	Large slender tree, shiny leaves. Edible white seed in red fruit.
<i>Hydriastele wendlandiana</i>	Slender clumping palm with red fruit. Moisture needed. Attracts birds.
<i>Leptospermum madidum</i>	Weeping Ti-Tree. Small graceful tree, attractive trunk, weeping foliage
<i>Litsea glutinosa</i>	Medium tree with wavy leaves. Suckers from roots. Healing qualities.
<i>Macaranga tanarius</i>	Bushy small, fast growing tree with attractive large heart-shaped leaves. Needs moisture and sun.
<i>Maranthes corymbosa</i>	Hardy large screening tree, termite resistant. Cream flowers.
<i>Micromelum minutum</i>	Dense shrub. White flowers, orange/red fruit. Brings butterflies.
<i>Millettia pinnata</i>	Medium screen tree with glossy leaves. Pink/white pea flowers.
<i>Miliusa brahei</i>	Attractive rough, dark bark. Shiny leaves and purple-black fruit.
<i>Mimusops elengi</i>	Large tree with shiny small leaves. Rough bark, orange edible fruit.
<i>Morinda citrifolia</i>	Small tree with glossy leaves. Scented white flowers, white fleshy fruit, smelly when ripe. Healing qualities.
<i>Myristica insipida</i>	Native Nutmeg. Medium tree with layered branches, glossy leaves. Brown seed wrapped in bright red aril.
<i>Nauclea orientalis</i>	Large tree with glossy leaves. White flowers on yellow globular heads.
<i>Peltophorum pterocarpum</i>	Yellow Flame Tree. Hardy medium tree, showy yellow flowers.
<i>Pittosporum ferrugineum</i>	Small tree with fragrant white flowers and orange seeds in yellow fruit.
<i>Pittosporum moluccanum</i>	Small tree with fragrant white fl and black seeds in orange fruit.
<i>Podocarpus grayae</i>	Large feature tree with strap leaves. Blue seed on red edible fruit.
<i>Polyalthia australis</i>	Tall tree with shiny leaves, bronze new growth. Red to black fruit.
<i>Premna serratifolia</i>	Fast growing small tree. Black fruit attracts birds.
<i>Syzygium armstrongii</i>	Large tree. White flowers and small edible white fruit. Cream bark.
<i>Syzygium fibrosum</i>	Small tree. Cream flowers, pink/red edible fruit.
<i>Syzygium forte</i>	Large tree. White flowers and large edible white fruit. Flaky bark.
<i>Syzygium minutiflorum</i>	Large tree. White fl and small edible white fruit. Moisture required.
<i>Syzygium nervosum</i>	Large tree, buttress roots. White flowers, edible purple fruit. Moisture required. Crushed leaves have pleasant fragrance.
<i>Tamarindus indica</i>	Tamarind. Large tree with dense crown. Oblong fruit capsules.
<i>Nauclea orientalis</i>
